Historic Renovation |

Private Residence, Boston

A magnificent residence dating back to the 1920s, this single-floor 4,000 square-foot condominium is located in a nine-story building in the Back Bay. The existing separation between the maids' quarters and the family residence was opened up to create a common hallway and a modern eat-in kitchen. The library and three bathrooms were also remodeled, flooring was reconstructed, and the electrical system was replaced.
